

THE LEGEND OF THE CORRICIADAN™ MEDICINE BOTTLE

The great Blues slide players took their inspiration from real life. In their medicine cabinets was the same bottle as the one being offered to the serious slide player today—The Corriciadan™ Cold Medicine Bottle. Just as the medicine cured what ailed you, the bottle itself had some wonderful qualities. It was light and small, exactly the right feel and weight for quick, sure positioning. It fit nicely on the ring finger with just enough play for sensitivity, and could make a guitar sound like nothing else. Generations of slide players have used it, and now you can too! All the qualities of the original Corriciadan™ bottle have been painstakingly reproduced by hand. Oh, there's no medicine in it now but the magic is still there. With the Corriciadan™ Medicine Bottle Slide you're not just playing a slide...you're playing a legend!
